RE: SEWER LINE RELOCATION PLAN
UTILITY FRANCHISE NO. 10238
SR 20, DUCKEN ROAD VICINITY
LETTER OF UNDERSTANDING (LOU) NO. 090

Dear Mr. Farleigh:

Discussions between the Washington State Department of Transportation (WSDOT) and the Washington State Parks and Recreation Commission (WSPRC) have resulted in the following LOU.

Letter of Understanding No. 090

It is agreed by all parties that the following conditions, obligations, and requirements shall apply, and that each party shall be bound by the following:

Project Description

The WSDOT is planning the construction of "SR 20, Troxell Road Vicinity to Deception Pass Vicinity", hereinafter the PROJECT. In connection therewith it is necessary for WSPRC to relocate approximately 1700 feet of their sewer line in the vicinity of Ducken Road. Construction is scheduled to begin in the Spring of 2005. WSPRC does not have funding in their current budget for construction of the relocation work.

WSDOT Responsibilities

WSDOT will advance to WSPRC the actual direct and related indirect costs associated with relocating 1700 lineal feet of 6 inch HDPE-sewer pipe. The costs of relocation construction are estimated to be \$100,000. Advancing the funding will allow relocation to be done during construction of the PROJECT, thereby realizing advantages to the motoring public and economies to the relocation work.

SHEET 1 of 2

WSPRC Responsibilities

Both WSDOT and WSPRC acknowledge and agree that WSPRC's obligation and ability to reimburse WSDOT as contemplated in this LOU is entirely subject to appropriation of funds by the legislature in the 2005-2007 biennium for this purpose.

By signing the spaces provided below, the WSPRC and the WSDOT acknowledge and agree to the terms and commitments outlined above.
